

## Improve Notification of Emergency Information For Factory Security, Railway Command, Disaster Prevention and Emergency Services

### System example

PC and software  
not required!\*

Just use PATLITE signal towers to make  
equipment problems visible!

\* Personal computer required for set up.

### Before

It is critical that IT staff is able to monitor the increasing number of devices on the network and be notified immediately when and where an issue is occurring.

### After

In addition to visual alert functions, the NH-FV can also play user-specified voice message alerts to specify where the issue is coming from instead of coding multiple locations with lights or sounds.

- Monitoring network equipment for signs of life (PING monitoring of 24 nodes)
- Get status of all the network equipment (You can register 20 MIB for SNMP compatible equipment)
- Receive and distinguish TRAP (64) messages

### Device configuration

MP3 Network Monitoring Signal Tower  
NH-FV Series
