Detecting failure of a high-mounted camera

Implementation Merit

Before Implementing

Security cameras have small lamps to indicate camera failure, but when cameras are installed in high places the lamps cannot be seen.

After Implementing

Larger lights can immediately alert security on the ground even with cameras installed in high places.

Configuration/Application

Configuration

[Network Camera]

[Patlite]
PHN-R Series
PES-100A-Y

Application

A Signal Light can be turned on via the PHN interface converter by using the camera's SOCKET communication function.
